SYSTEM CONVENTIONS

Input Cells

- All data and information inputs are done in input cells.
- Input cells are color-coded light yellow, light green or light blue.
- In many cases, input cells have built-in dropdown lists which may restrict data or information entered into those cells.

Protected Cells

- All cells that are not input cells are protected.
- Protected cells cannot be accessed and changed without first unlocking the spreadsheet via its password.

Macro Buttons

- Macro buttons are clicked on in order to activate macros that are built into the system.
- Data capture macro buttons are colour-coded bright turquoise.
- Data/information copy macro buttons are colour-coded bright green.

Red Font

- Red font warns the user of inputs that are incorrect or incomplete, and require the user to rectify those inputs before proceeding.

Other Colour Font

- Result outputs (reports) that are highlighted in green indicate results that are ordinarily more desirable than average.
- Result outputs (reports) that are highlighted in purple indicate results that are ordinarily less desirable than average.

SYSTEM CONFIGURATION

PURPOSE: To set up the system to process and track corporate clients, opportunities, qualifications, proposals and sales, and to produce sales performance and planning reports for decision-making purposes.

RESPONSIBILITY: Sales Administrator

FREQUENCY: On-going.

Configuration

Input and maintain the standardized drop down lists for the capture of data and information.

Open the **Configuration** tab.

- Set Up/Update the drop down lists:
 - Enter the list the variables making up each of the dropdown lists under the headings (dark green cells with white font): ***Industry*** (29), ***Source of Business*** (57), ***Solution*** (29), ***Sales Rep*** (16), ***Inside Sales Rep*** (16), ***Meeting Outcome*** (5), ***Next Steps*** (19), ***Reason for No Proposal*** (22), ***Reason for No Go*** (24) and ***Reason for No Variance*** (22). (The number in brackets after each drop down list indicates the number variables available for that list.)

DATA INPUT—DASHBOARD

PURPOSE: To manage and control the sales tracking process and maintain an up-to-date perspective of clients, opportunities, qualifications, proposals and sales.

RESPONSIBILITY: Sales Administrator

FREQUENCY: On-going

OVERALL PROCESS: There are potentially 5 input points from the time that a client is identified and an opportunity enters the funnel until the client gives a go ahead or no go:

1. Identify Corporate Client
2. Determine Opportunity
3. Qualification
4. Proposal
5. Sale

Corporate Client

Input the client details when the client is first identified (New Client ID), and each time thereafter when the details are updated (Existing Client ID).

- New Client ID:
 - Create a new client id by ensuring that the **Select Client** cell above the **STATUS SUMMARY** box is empty, before inputting the client details in the yellow cells in the **CORPORATE CLIENT** box. The system will automatically generate a client ID and a 11-digit client number in the Client **ID** and **Client No.** cells respectively.
 - Capture the contact information pertaining to the client in the yellow cells. The **Industry** input is to be selected via the choices offered in the dropdown list. Do not input anything in the yellow cells of rows where the left-most cells are blank.
 - Run the **Capture Corporate Client Details** macro.
- Existing Client ID:
 - Select an existing client in the blue **Select Client** cell above the **STATUS SUMMARY** box by clicking on the relevant site id on the dropdown list. Once the site id has been selected, the **CORPORATE CLIENT** box will show the up-to-date contact information for that client.

Note: To search existing CLIENT ids, use the blue *Search Name* cells to the right of the **STATUS SUMMARY** box.

Note: Where not all the information is available or applicable, leave blank or enter “n/a” in the relevant cells. Follow Information Update steps (below) where bits of information become available at a later date.

- Information Update:
 - To update the details of an existing client, type the new information in the yellow cells to the right of the information that is missing or needs to be replaced.
 - Run the *Capture Corporate Client Details* macro.

Opportunity

Input the date of first meeting with the client, the details of the opportunity and the outcome of the meeting.

- New Opportunity:
 - Create a new opportunity by clicking on “NEW” in the dropdown list of the blue *Existing/New Opportunity* cell at the top of the **OPPORTUNITY** box. The system will automatically generate an opportunity identification number in the *Opportunity ID* cell. The opportunity identification number is the opportunity id followed by a number sign (#) and the sequential 2-digit number representing the opportunity. The system will also generate a unique opportunity number in the *Opportunity No.* cell. The opportunity number is the client identification number followed by a dot (.) and the sequential 2-digit number representing the opportunity.
 - Capture the information pertaining to the new opportunity in the yellow cells of the **OPPORTUNITY** box. The *Source of Opportunity*, *Outcome of 1st Meeting*, *Next Step*, *Reason for No Next Step* and *Sales Rep* inputs are to be selected via the choices offered in the dropdown lists. Do not input anything in the yellow cells of rows where the left-most cells are blank.
 - Run the *Capture Opportunity Details* macro.
- Existing Opportunity:
 - Either, click on “EXISTING” in the dropdown list of the blue *Existing/New Opportunity* cell at the top of the **OPPORTUNITY** box, or leave that cell blank.
 - Select an existing opportunity in the blue *opportunity* cell in the **STATUS SUMMARY** box using the dropdown list. Once the opportunity has been selected the **OPPORTUNITY** box will show the up-to-date job information for the selected opportunity.

Note: Where not all the information is available or not applicable, enter “n/a” in the relevant cells. Follow the Information Update steps (below) where bits of information become available at a later date.

- Information Update:
 - To update the details of an existing opportunity, type the new information in the yellow cells to the right of the information that is missing or needs to be replaced.
 - Run the *Capture Opportunity Details* macro.

Qualification

Input the qualification meeting date, the outcome of that meeting and the details of the qualification.

- Information Capture:
 - Either, click on “EXISTING” in the dropdown list of the blue *Existing/New Opportunity* cell at the top of the **OPPORTUNITY** box, or leave that cell blank.
 - Select an existing opportunity in the blue *opportunity* cell in the **STATUS SUMMARY** box using the dropdown list.
 - Capture the qualification information pertaining in the yellow cells of the **QUALIFICATION** box. The *Outcome*, *Solution*, *Next Step*, *Reason for No Next Step*, *Sales Rep* and *Inside Sales Rep* inputs are to be selected via the choices offered in the dropdown lists. Do not input anything in the yellow cells of rows where the left-most cells are blank.
 - Run the *Capture Qualification Details* macro.

Note: Where not all the information is available or not applicable, enter “n/a” in the relevant cells. Follow the Information Update steps (below) where bits of information become available at a later date.

- Information Update:
 - Either, click on “EXISTING” in the dropdown list of the blue *Existing/New Opportunity* cell at the top of the **OPPORTUNITY** box, or leave that cell blank.
 - Select an existing opportunity in the blue *opportunity* cell in the **STATUS SUMMARY** box using the dropdown list. Once the opportunity has been selected the **QUALIFICATION** box will show the up-to-date job information for the selected opportunity.
 - To update the qualification information of an existing opportunity, type the new information in the yellow cells to the right of the information that is missing or needs to be replaced.
 - Run the *Capture Qualifications Details* macro.

Proposal

Input the proposal delivery date, the details of the proposal and the scheduled answer to the proposal.

- Information Capture:
 - Either, click on “EXISTING” in the dropdown list of the blue *Existing/New Opportunity* cell at the top of the **OPPORTUNITY** box, or leave that cell blank.
 - Select an existing opportunity in the blue *opportunity* cell in the **STATUS SUMMARY** box using the dropdown list.
 - Capture the proposal information pertaining in the yellow cells of the **PROPOSAL** box. The *Proposal Offering*, *Sales Rep* and *Inside Sales Rep* inputs are to be selected via the choices offered in the dropdown lists. Do not input anything in the yellow cells of rows where the left-most cells are blank.
 - Run the *Capture Proposal Details* macro.

Note: Where not all the information is available or not applicable, enter “n/a” in the relevant cells. Follow the Information Update steps (below) where bits of information become available at a later date.

- Information Update:
 - Either, click on “EXISTING” in the dropdown list of the blue *Existing/New Opportunity* cell at the top of the **OPPORTUNITY** box, or leave that cell blank.
 - Select an existing opportunity in the blue *opportunity* cell in the **STATUS SUMMARY** box using the dropdown list. Once the opportunity has been selected the **PROPOSAL** box will show the up-to-date job information for the selected opportunity.
 - To update the proposal information of an existing opportunity, type the new information in the yellow cells to the right of the information that is missing or needs to be replaced.
 - Run the *Capture Proposal Details* macro.

Sale

Input the client’s answer to the proposal when it is received.

- Information Capture:
 - Either, click on “EXISTING” in the dropdown list of the blue *Existing/New Opportunity* cell at the top of the **OPPORTUNITY** box, or leave that cell blank.
 - Select an existing opportunity in the blue *opportunity* cell in the **STATUS SUMMARY** box using the dropdown list.

- Capture the sale information pertaining in the yellow cells of the **SALE** box. The **Deliverable**, **Go/No Go**, **Reason for Value Variance**, **Reason for No Sale**, **Sales Rep** and **Inside Sales Rep** inputs are to be selected via the choices offered in the dropdown lists. Do not input anything in the yellow cells of rows where the left-most cells are blank.
- Run the **Capture Sales Details** macro.

Note: Where not all the information is available or not applicable, enter “n/a” in the relevant cells. Follow the Information Update steps (below) where bits of information become available at a later date.

- Information Update:
 - Either, click on “EXISTING” in the dropdown list of the blue **Existing/New Opportunity** cell at the top of the **OPPORTUNITY** box, or leave that cell blank.
 - Select an existing opportunity in the blue **opportunity** cell in the **STATUS SUMMARY** box using the dropdown list. Once the opportunity has been selected the **SALE** box will show the up-to-date job information for the selected opportunity.
 - To update the proposal information of an existing opportunity, type the new information in the yellow cells to the right of the information that is missing or needs to be replaced.
 - Run the **Capture Sale Details** macro.

REPORT GENERATION (HISTORICAL REPORTS)

PURPOSE: To report and summarize sales performance, identify and analyze trends, and facilitate timely and accurate decision making.

RESPONSIBILITY: Sales Administrator

FREQUENCY: On-going

Report Parameters

- Specify Report Parameters:
 - Specify the period for which the report is required by entering the start and finish dates in the yellow **FROM (and including)** and **TO (and including)** date cells respectively.
 - Select the report frequency via the dropdown list in the **Report Frequency** cell.
 - If all products/services are required, click on “All” on the dropdown list in the **Product/Service** cell. To limit the report to selected products or services, click on “Select” in the **Product/Service** cell, and select the desired products or services via the dropdown lists in the **select** cells to the right of the **Product/Service** cell. If fewer than 5 products or services are desired, enter “n/a” or leave blank those **select** cells that are not being used to specify a product or service.
 - If all sales reps are required, click on “All” on the dropdown list in the **Sales Rep** cell. To limit the report to selected sales reps, click on “Select” in the **Sales Rep** cell, and select the desired sales rep via the dropdown lists in the **select** cells to the right of the **Sales Rep** cell. If fewer than 5 sales reps are desired, enter “n/a” or leave blank in those **select** cells that are not being used to specify a sales rep.
 - If all inside sales reps are required, click on “All” on the dropdown list in the **Inside Sales Rep** cell. To limit the report to selected inside sales reps, click on “Select” in the **Inside Sales Rep** cell, and select the desired inside sales rep via the dropdown lists in the **select** cells to the right of the **Inside Sales Rep** cell. If fewer than 5 inside sales reps are desired, enter “n/a” or leave blank those **select** cells that are not being used to specify an inside sales rep.

- If all sources of business are required, click on “All” on the dropdown list in the **Source of Business** cell. To limit the report to selected sources of business, click on “Select” in the **Source of Business** cell, and select the desired sources of business via the dropdown lists in the **select** cells to the right of the **Sources of Business** cell. If fewer than 5 sources of business are desired, enter “n/a” or leave blank those **select** cells that are not being used to specify a source of business.

- All Sales

This report shows all products or services by the specified report frequency over the specified report period in both tabular format and graphically. It is entirely defined by the report period (**Date From** to **Date To**) as described above.

- Sales (defined by Report Parameters)

This report shows sales by defined parameters, by the specified report frequency over the specified report period in both tabular format and graphically. The report is entirely defined by the specification of report parameters (described above).

- Pie Charts

The pie charts and the accompanying tables compare the top \$-performers within each of Product/Service, Sales Rep, Inside Sales Rep, and Source of Business, over the selected report period:

- Enter the number of pie slices desired for each of Product/Service, Sales Rep, Inside Sales Rep and Source of Business in the yellow **pie slices** cells. The report will alert the user if there are too few items within any of the categories (“too few pie slices”, shown in red font) to show the selected number of pie slices.

- Sales Conversion Rates

The conversion charts compare the top convertors of proposals into go-aheads within each of Product/Service, Sales Rep, Inside Sales Rep and Source of Business, over the selected report period. The first bar indicates the highest conversion rate, followed by the 4 next best convertors, The bottom 5 bars indicate the lowest 5 conversion rates with the lowest conversion rate at the bottom. Bars without a label and showing 0% are indicative of categories with fewer than 10 items.

- Top 20 Sales

This table ranks sales for the period specified (in \$-terms) and shows \$-value, date of sales, product or service, sales rep and inside sales rep.

REPORT GENERATION (PLANNING REPORTS)

PURPOSE: To plan sales activities for a specified period of time.

RESPONSIBILITY: Office Administrator

FREQUENCY: On-going

Above the Funnel: 1st Meetings Scheduled

- Specify Report Parameters:
 - Specify the period for which the report is required by entering the start and finish dates in the yellow **FROM (and including)** and **TO (and including)** date cells respectively.
 - If all products/services are required, click on “All” on the dropdown list in the **Product/Service** cell. To limit the report to selected products or services, click on “Select” in the **Product/Service** cell, and select the desired products or services via the dropdown lists in the **select** cells to the right of the **Product/Service** cell. If fewer than 5 products or services are desired, enter or “n/a” or leave blank those **select** cells that are not being used to specify a product or service.
 - If all sales reps are required, click on “All” on the dropdown list in the **Sales Rep** cell. To limit the report to selected sales reps, click on “Select” in the **Sales Rep** cell, and select the desired sales rep via the dropdown lists in the **select** cells to the right of the **Sales Rep** cell. If fewer than 5 sales reps are desired, enter “n/a” or leave blank those **select** cells that are not being used to specify a sales rep.

The reports will show (up to) the next 100 1st meeting scheduled.

In the Funnel: Qualification Stage

- Specify Report Parameters:
 - Specify the period for which the report is required by entering the start and finish dates in the yellow **FROM (and including)** and **TO (and including)** date cells respectively.
 - If all products/services are required, click on “All” on the dropdown list in the **Product/Service** cell. To limit the report to selected product or service, click on “Select” in the **Product/Service** cell, and select the desired products or services via the dropdown lists in the **select** cells to the right of the **Product/Service** cell. If fewer than 5 products or services are desired, enter or “n/a” or leave blank those **select** cells that are not being used to specify a product or service.
 - If all sales reps are required, click on “All” on the dropdown list in the **Sales Rep** cell. To limit the report to selected sales reps, click on “Select” in the **Sales Rep** cell, and select the desired sales rep via the dropdown lists in the **select** cells to the right of the **Sales Rep** cell. If fewer than 5 sales reps are desired, enter “n/a” or leave blank those **select** cells that are not being used to specify a sales rep.
 - If all inside sales reps are required, click on “All” on the dropdown list in the **Inside Sales Rep** cell. To limit the report to selected inside sales reps, click on “Select” in the **Inside Sales Rep** cell, and select the desired inside sales rep via the dropdown lists in the **select** cells to the right of the **Inside Sales Rep** cell. If fewer than 5 inside sales reps are desired, enter “n/a” or leave blank those **select** cells that are not being used to specify an inside sales rep.
 - If all qualifications are required, click on “All” on the dropdown list in the **Opportunity** cell. To limit the report to selected opportunities, click on “Select” in the **Opportunity** cell, and select the desired opportunity via the dropdown lists in the **select** cells to the right of the **Opportunity** cell. If fewer than 5 opportunities are desired, enter “n/a” or leave blank those **select** cells that are not being used to specify an opportunity.

The reports will show (up to) the next 100 qualification meeting dates scheduled.

In the Funnel: Proposal Stage

- Specify Report Parameters:
 - Specify the period for which the report is required by entering the start and finish dates in the yellow **FROM (and including)** and **TO (and including)** date cells respectively.
 - If all products/services are required, click on “All” on the dropdown list in the **Product/Service** cell. To limit the report to selected product or service, click on

- “Select” in the **Product/Service** cell, and select the desired products or services via the dropdown lists in the **select** cells to the right of the **Product/Service** cell. If fewer than 5 products or services are desired, enter or “n/a” or leave blank those **select** cells that are not being used to specify a product or service.
- If all sales reps are required, click on “All” on the dropdown list in the **Sales Rep** cell. To limit the report to selected sales reps, click on “Select” in the **Sales Rep** cell, and select the desired sales rep via the dropdown lists in the **select** cells to the right of the **Sales Rep** cell. If fewer than 5 sales reps are desired, enter “n/a” or leave blank those **select** cells that are not being used to specify a sales rep.
 - If all inside sales reps are required, click on “All” on the dropdown list in the **Inside Sales Rep** cell. To limit the report to selected inside sales reps, click on “Select” in the **Inside Sales Rep** cell, and select the desired inside sales rep via the dropdown lists in the **select** cells to the right of the **Inside Sales Rep** cell. If fewer than 5 inside sales reps are desired, enter “n/a” or leave blank those **select** cells that are not being used to specify an inside sales rep.
 - If all proposals are required, click on “All” on the dropdown list in the **Offering** cell. To limit the report to selected offerings, click on “Select” in the **Offering** cell, and select the desired offering via the dropdown lists in the **select** cells to the right of the **Offering** cell. If fewer than 5 offerings are desired, enter “n/a” or leave blank those **select** cells that are not being used to specify an offering.

The reports will show (up to) the next 100 proposal delivery dates scheduled.

In the Funnel: Sale Stage

- Specify Report Parameters:
 - Specify the period for which the report is required by entering the start and finish dates in the yellow **FROM (and including)** and **TO (and including)** date cells respectively.
 - If all products/services are required, click on “All” on the dropdown list in the **Product/Service** cell. To limit the report to selected product or service, click on “Select” in the **Product/Service** cell, and select the desired products or services via the dropdown lists in the **select** cells to the right of the **Product/Service** cell. If fewer than 5 products or services are desired, enter or “n/a” or leave blank those **select** cells that are not being used to specify a product or service.
 - If all sales reps are required, click on “All” on the dropdown list in the **Sales Rep** cell. To limit the report to selected sales reps, click on “Select” in the **Sales Rep** cell, and select the desired sales rep via the dropdown lists in the **select** cells to the right of the **Sales Rep** cell. If fewer than 5 sales reps are desired, enter “n/a” or leave blank those **select** cells that are not being used to specify a sales rep.

- If all inside sales reps are required, click on “All” on the dropdown list in the ***Inside Sales Rep*** cell. To limit the report to selected inside sales reps, click on “Select” in the ***Inside Sales Rep*** cell, and select the desired inside sales rep via the dropdown lists in the ***select*** cells to the right of the ***Inside Sales Rep*** cell. If fewer than 5 inside sales reps are desired, enter “n/a” or leave blank those ***select*** cells that are not being used to specify an inside sales rep.
- If all sales are required, click on “All” on the dropdown list in the ***Deliverable*** cell. To limit the report to selected offerings, click on “Select” in the ***Deliverable*** cell, and select the desired deliverable via the dropdown lists in the ***select*** cells to the right of the ***Deliverable*** cell. If fewer than 5 deliverables are desired, enter “n/a” or leave blank those ***select*** cells that are not being used to specify a deliverable.

The reports will show (up to) the next 100 go/no go meeting dates scheduled.
